Re: Title 47, 2023 Wolf Hunting Seasons Regulation

Dear Commissioners and Director Nesvik:

On behalf of Safari Club International, I would like to thank you for the opportunity to comment on the Title 47, 2023 Wolf Hunting Season Regulation.

The proposed changes to the 2023 Wolf Hunting Seasons Regulation generally demonstrate responsible and sustainable management of wolves while maintaining high levels of opportunity for hunters. SCI believes that sound science-based conservation involving hunting as the primary management tool, while maximizing opportunities for all huntable species, including predators such as wolves, is necessary to the long-term health of wildlife. Hunters have long paid the way for conservation, both game and non-game wildlife, and maximizing opportunity for hunting is also key to long-term funding for all conservation. Hunting benefits wildlife conservation.

Thank you again for the opportunity to comment on the 2023 Wolf Hunting Seasons Regulation. SCI is dedicated to protecting the freedom to hunt and we appreciate the continued partnership with the Department and the Commission. SCI is always first for hunters.

Sincerely,

Sven Lindquist
President
Safari Club International
